Services provided by NAARI

HardCash to DigiCash

The woman will provide their hard cash to the shopkeeper, the shopkeeper will click the photo of the note and the ML model will detect whether it is fake or not and inform the value of note. The amount will then be transferred from the shopkeeper to woman's bank account using upi.

Gullak

Gullak is digital form of commitee. Gullak is a central Bank Account where any woman can add money. The added money will be invested in the market.

Open a Bank Account

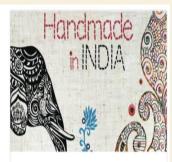

Woman can open their bank account by talking with the bank sales representative through video call or voice call and if satisfied they can share their details to the bank for opening their account in that

Be Vocal for Local

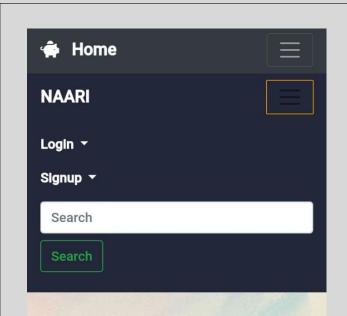

Every MSME needs promotion to get its product to the desired audience. Posters, wall paintings and TV ads do not provide the review of the product, thus having vocal representatives increases the credibility of product. We are presenting a platform to MSME where they can hire women from local regions to promote their products & women will receive credits and incentives for promoting the product.

Advertise your MSME

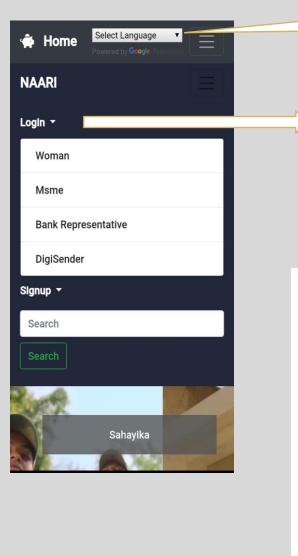

In this section, the MSMEs can add vacancies for women and check the details of the applicants. They can even list their product in the marketplace.

Gullak

How It Works?

Gullak is a new and secured digital form of investment at a large scale, which is inspired by Small Scallak is a central bank account shared between women. Any woman can add money to the Gullak a market to earn profit (For example, there can be a tie up between private or public firm and our we activities and share of profit earned is transferred back to the Gullak account). Woman can redeem amount + profit share) will be transferred back to the woman's account.

Benefits Of Using It:-

You dont even need to be a beginner in stock market to invest money.

It is similar to committee but more secure, risk-free and hassle free.

They become a part of the society and working together they can support and raise each other

Hand Cash to Digi Cash

• The DIGI Cash dialog box appears

• If you want to become a sender login to page and start the process.

• Search Digi Senders nearby our place

How It Works?

1. The DigiReceiver needs to provide the hardcash to the shopkeeper.

2. The DigiSender will then scan the money .
The ML model informs the DigiSender
whether the money is real or fake and detects
the value of the note.

3. The detected value will then be transferred from the DigiSender to the DigiReceiver's bank account using UPI.
